EXPERIENCE

Cogency Global, Inc.

Jan 2024 – Jun 2025

Application Developer / Development Team Lead

- Led development of two internal tools (Representation Contact Verification Tool, Nonprofit Compliance Management Tool) through to completion
- Led technical discussions and stakeholder conversations, mentoring teammates through code reviews and coaching
- Coordinated across 5 operations teams to navigate a complex rollout process while maintaining consistent delivery output

Creed Interactive

Feb 2021 – Sep 2023

Senior Developer

- Client ConvergeOne: Maintained and enhanced a custom React chat application; led code reviews and mentored client team
- Client Delta Dental of Michigan: Introduced code quality and testing standards within a SAFe environment for an unfamiliar client stack; directed delivery of 2,600+ QA tests under a tight deadline

Perficient, Inc.

Mar 2018 – Feb 2021

Senior UI Developer / Full Stack Developer / Solutions Developer

- Client Mitsubishi UFJ Financial Group: Maintained a trust and custody portal handling ~$2B in transactions annually; received Perficient Innovation Award (2019) for tenacious problem solving
- Client Adobe: Assisted 50+ client teams in transitioning to named user licensing; built a simulated roster REST API and custom BI reporting
- Client Poly: Built navigation-upgrade prototypes that laid the groundwork for a shipped redesign, and implemented frontend updates supporting a company rebrand

Do Good Tech

Aug 2017 – Feb 2018

Front End Developer

- Independently migrated a brochureware site from AngularJS to Angular 4 under a strict deadline
- Built frontend features for a coupon redemption application, with additional contributions across the broader site
- Designed and implemented a dynamic-forms system enabling non-technical users to submit and manage site content
